

CAMON

C8 Rotavator

The most successful rotavator in the UK today, and suitable for both gardens and allotments, the **CAMON** C8 Rotavator is ideal for preparing soil for seeding and planting, even in the most demanding conditions. Its compact size allows for maximum manoeuvrability, whilst the Honda engine provides the necessary power and superior levels of reliability. The proven leader in its class, the C8 is ideal for both professional and domestic users.

- Very simple and safe to operate
- All gear drive with no belts or chains for improved reliability
- Anti-vibration and adjustable handlebars for operator comfort and safety
- Tough steel engine protection and sump guard to safeguard against accidental damage
- Safety lockout to prevent simultaneous engagement of digging blades and reverse gear for operator protection
